The solution

We have recently completed the extensive renovation of Gotherington Chapel near Cheltenham. Works included the repair and replacement of roofing to the main structure and porch, specialist stone repairs and rendering.

Internal refurbishment, repairs and both internal and external decoration works were completed. All works were delivered on time and on budget.

The Old Chapel in Gotherington was built in 1833 and was originally owned by the Countess of Huntingdon's Trust. Today the building is owned by The Old Chapel Community Project (Registered UK Charity No. 1179607), a charity set up in 2018 by villagers of Gotherington, who wanted to ensure that The Old Chapel would remain a place the community could use for years to come.
